

ICMLDE2022 Pro Forma

Title: Emerging Technologies on Machine Learning and its optimized Techniques

Topics of Interest: The topics should be in the scope of the conference:

- Probabilistic and statistical model
- Learning theory
- Big-data Tools and Techniques
- Data compression and sampling
- Statistical learning
- Machine learning and evolution methods
- Deep learning
- Modelling and simulation of mobile cloud
- Cloud-let discovery in mobiles
- Learning Classifiers and Analytics
- Parallel and distributed learning
- Social & Information Network Analysis
- Mining Data Streams
- Recommendation System
- Speech Analytics
- Scientific data and big data analysis
- Scalable analysis and learning
- High-performance computing for data analytics Architecture
- Management and process for data science

Session committee member's details

1. Name: Dr Rajasekaran Rajkumar
Institution: Vellore Institute of Technology, Vellore
Email: vitrajkumar@gmail.com
2. Dr. Jolly Masih, Head Techno Managerial Research, PIMER – INDORE
3. Dr. Jyoti Munnavalli, Associate Professor, CSE, BNMIT, Bengaluru
