

# ICMLDE2022 pro forma

**Title: Special Session on:** Data Analytics and Service Sector

**Topics of Interest:**

This special session is basically focused on providing a platform for the researchers and industry practitioners to meet and share their original research results, practical experiences and thoughts on Data Analytics applications in Service Sectors. In recent years, there is an increase in the use of data analytics techniques to significantly contribute in the service sector areas viz., healthcare, Government, hospitality/tourism, banking, telecommunications etc. Also, this has induced academicians, researchers, government agencies and other practitioners to change their focus towards applications of various Data Analytics techniques.

**Topics:**

Data Analytics in Healthcare Data Analytics in Education Data Analytics in Hospitality/Tourism Data Analytics in Retail Sector Data Analytics in Entertainment Financial Services etc.
