

ICMLDE2022

Title: Special Session on Data Science and Machine Learning for sustainable development

Topics of Interest: The topics should be in the scope of the conference:

Data acquisition and data analysis in Smart Cities
ML for Agriculture development
Predictive modeling for pollution free-urban environments
Weather forecasting using Time series analysis
Anomaly detection for multivariate sensor data
ICT in Urban Development
Predictive modeling for Transportation
Predictive modeling for energy-efficient cities
Analytics for urban stakeholders
ML models for emergency management
Social Networks for Sustainable Cities
Epidemic data analysis in urban environments
Deep learning models for Smart Surveillance

Session committee member's details

Name: Dr. Sushila Palwe
Institution: MIT World Peace University
Email: sushila.palwe@mitwpu.edu.in
